COARSE GRAINS HIGHER

Provisions Steady With Corn, Closing Higher.

Chicago, Nov. 17 .- Wheat opened weak with the break in Liverpool; steadled on small receipts, closing 2-8c lower after a decline precipitated by a report that 1.000 -999 husbels of Duluth wheat was headed this way. Corn closed at an advance of 1-863-8c, helped by small country offerings. Oats closed 1-891-to over yesterday. Provisions closed 5c higher.

Wheat opened 5-860-ic under yesterday,

December at 66 3-497-8; and May at 79 7-8 \$71c. It became evident that the market had been oversold to some extent, a condition the discovery of which added to the desire to cover shortages. The early gain was all lost late in the session when it was reported that within the next ten days boats carrying 1,000,000 bushels of wheat would clear from Duluth for this port. Both options declined sharply toward the end, December closing 3-861-2c ower at \$761-8c and May 2-5c under at 71 7-50. The trade was moderately active, a fact attributed by some to the crusade begun against bucket shops affecting some large board of trade firms. New York reported 30 loads taken for export. Bradstreet's gave the exports of wheat and flour from American ports at 4,510,000 bushels. For the day, seaboard cloraances were equal in wheat and flour to 265,000 bushels. Primary receipts were 827.529, compared with 1,489.821 a year ago. Northwest receipts were 802,000, against 890 last week and 1,525 the corresponding day last year. Sixty-five cars, thirtythree of contract grade, were received

Corn was reltaively strong all day. The opening showed a little weakness in sympathy with wheat. December opening a shade lower at \$13-861-20, and May 1-80 1-to lower at 32 1-205-to. Country offerings, the lightness of which has for some time been a strengthening feature, were again small and the market steadily improved, though trading did not become animated, the range of prices being within 5-8c. December advanced to 32c, and May to 33c. Near the close the weakness of wheat led to some profit-taking and the market eased off. December closed 1-493-80 higher at 213-497-30, and May 1-8c over yesterday at 32 7-8c. Shippers were the chief buyers of December. The olearances were 890,000. Receipts were 203

Oats were firm on some good shipping cemand. The opening was unchanged from yesterday to a shade lower. December at 23-4c and May at 237-5@24c. Buy-
